

FAST FACTS

Providence Mission Hospital

As a designated adult and pediatric Level II Trauma Center in the state of California, Providence Mission Hospital provides a full range of specialty health care services with highly skilled teams treating a multitude of complex conditions. We have two campuses—Mission Viejo and Laguna Beach.

Providence Mission Hospital was founded in 1971 by a group of physicians and partnered in 1993 with CHOC Children's Hospital to provide pediatric services. In 1994, the hospital became a member of St. Joseph Health. In 2009, we acquired our Laguna Beach hospital and in 2016, we joined the Providence Health family of 51 hospitals.
